

BASEBALL FREE ON THE COMING FOURTH OF JULY

Ogden Standard Buys All General Admissions to the Fair Grounds and Will Give Them Free to Its Subscribers and Their Families—Stay at Home on the 4th and 5th of July and Encourage the Home Boys and Have a Safe Fourth.

The Standard has purchased from the City League Baseball organization all the admissions to the Glenwood Park ball grounds for July 4th and 5th, 1915, and the Standard will present the admissions free to its subscribers. The only charge reserved is 10 cents for the grandstand and 10 cents for each automobile seat. Every other seat at the ball grounds, whether in the bleachers or on the grass, has been sold to the Standard and will be free to Standard subscribers, otherwise the regular admission charge of 15 cents will be maintained.

Remember, admission to grounds will be free to Standard subscribers and their families. No matter how small or big the family, it is the Standard's treat and your family goes in free, but we trust you not to bring any more than your own family.

Also remember that the grandstand is not free. Each seat there will cost 10 cents as will auto seats, but there is room for 2,000 people in the bleachers and room for 4,000 on the grass beside the auto. The Standard has in view, in buying the general admissions to the ball grounds—

First, to help you keep your money at home.

Second, to help pay the expenses of the City Baseball League.

Fourth, to show the people that the Ogden City Baseball League is furnishing remarkably good ball.

Do you know that it required 10 innings the other day to play a 1 to 0 game?

Did you know that it required 11 innings to play a 2 to 1 game two weeks ago? Those are facts. Ogden City boys are playing that kind of ball. That is not all. Every one of the players are Ogden boys born, reared or settled among us. Your children will be out of mischief at the ball grounds, you can watch them better. No fireworks will be allowed on the ball grounds, hence there will be no 4th of July accidents.

Then if you want, after the game is over, you can take a ride up Ogden canyon or go home and thereby show the children how to hold a safe Fourth of July.

COUNTY TO NORTH OF OGDEN MOST PROMISING

Harold J. Peery returned this morning from Idaho, after making a tour of the country from Ogden to Twin Falls in an automobile, in company with W. D. Brown, R. E. Hoag and E. W. Olson. Messrs. Peery, Hoag and Olson were guests of Mr. Brown on the trip, which was made at his suggestion that they accompany him on an inspection tour of the W. D. Brown Commission company's branch elevators in northern Utah and Idaho.

Leaving Ogden about a week ago, the party visited the towns of Tremonton, Snowville, Stone, Black Pine, Malta, Sublet, Conant, Strevell, Albion, Burley and Twin Falls and found them all in a flourishing condition. All of the towns are tributary to Ogden in a commercial way and the Ogden men were pleased to find that most of the goods on the store shelves were from Ogden jobbers and that many things were Ogden and Utah manufactured.

Mr. Peery was especially impressed with the extent and promising condition of the country and stated this afternoon that at least one million people could find plenty of room in it to make their homes, if they could only be persuaded to settle there. As it is, he said, the country is being settled surprisingly fast and the towns are all being built along modern lines. Quite a number of Ogden people have settled at different points

A "Star Player" in the Western Coal Market

In comparison with other coals, and in sales according to population, "Aberdeen's" average is among the highest of any coal sold in the west. Its superior qualities have made it a "star player" and won for it the preference of thousands and thousands of exacting consumers. Today is a good day to place YOUR order for "Aberdeen." Any dealer will serve you.

along the line traveled by the four local business men. A number were visited, among them being Laurence Corey, who has a 750-acre ranch and dry farm near Sublet, Ida.; Thomas Keogh, who has a big cattle ranch near Malta; Ed. Fitzgerald, who is managing the new National hotel at Burley, and G. C. Dugler and Joseph Clause, prominent ranchers in the Black Pine country.

Though there has been somewhat of a scarcity of rain on the dry farms, Mr. Peery stated that there would be at least a normal crop of wheat all over the big district, and that in some localities the crop would be exceptionally large. In the country north of Sublet, it is anticipated that one million bushels of wheat will be harvested. The big need of the country is transportation facilities, as at present most of the farms are nearly forty miles from a railroad.

CONCERT FOR CHOIR AT TABERNACLE TONIGHT

Miss Emma Lucy Gates, the Utah prima donna who is to assist the Ogden Tabernacle choir in its concert tonight at the Tabernacle, arrived in the city late this afternoon and Professor John J. McClellan was expected to arrive about 6 o'clock. These two artists, who aided the noted local chorus in its former concert tours and who shared the honors which it was accorded, are expected to be at their best tonight as both have steadily continued to perfect themselves in their art since their last concert appearances here.

Messrs. Leon Hofmeister, baritone, and W. R. Worley, tenor, went through their entire program with the choir at its final rehearsal last night and, under the baton of Director Ballyntyne, every number was rendered in a manner that endeavored an optimistic feeling with regard to the success of its public presentation to night. Both soloists have made themselves favorites with the choir during their brief visit in the city, both on account of their possessing splendid voices and for their congenial personalities.

W. T. ASTILL AND HIS FAMILY ENJOY TRIP

W. T. Astill returned yesterday on the Pacific Limited from a ten day visit to the Panama-Pacific exposition. He reports the fair to be quite deserving and well worth seeing. Everything is now quite complete with one or two exceptions and the attendance of the past few days has been something enormous, running as high as 70,000 daily with additional excursionists coming into San Francisco by the thousands. Canada, California and Oregon are credited with the most beautiful and surpassing exhibitions on the grounds. Utah also is making a very creditable showing and the attendant there informed them that Utah got gold medals on honey, also fruits, and silver medals on canned goods.

Mrs. Astill and children extended their visit to the San Diego fair and will also visit friends in southern California before returning home.

SUES LOCAL ATTORNEY FOR DAMAGES IN SUM OF \$2000

In the district court today, J. W. Burton filed a suit for damages against George Halverson, charging that on February 8, 1915, he uttered "false and slanderous words" against him in the presence of Claude T. Barnes as follows:

Mr. Burton claims that he has been damaged in the sum of \$2000 on each of the two causes of action.

FIRES ARE FEARED ON SALT LAKE FOOTHILLS

On the Weiser forest, the grazing season opened on account of dry weather in April, about two weeks earlier than usual, yet the heavy and continued rains during May delayed shearing so that few sheep entered the forest before June 15, and many have not yet reached their summer range. The range is in excellent condition, but the hot winds the past weeks have dried out the lower ranges considerably.

The Standard Timber company, which is cutting ties and mine poles on the eastern part of the Wasatch forest, succeeded this year in "cleaning out" the timber banked on Black's

Fork with the exception of a very little on the Middle Fork. Owing to the cold weather and lack of snow early in the winter, the timber was frozen in quite solidly and it was necessary to open a channel with dynamite. All of the drive which was hung up last year was successfully taken out and this year's drive was also almost all removed. On Mill Creek about two-thirds of the total drive is said to have been removed. Owing to low water due to lack of snow and variable weather, driving was particularly difficult and was done at all only with the aid of the splash dam on the south fork of Mill creek.

The rainfall at Salt Lake, the headquarters of the Wasatch, was one and one-half inches for June, or nearly double the normal for that month. It is feared that the heavy rain of the morning resulting is likely to cause serious fire danger if the latter part of the season should be dry. Fires may be looked for in the foothill country adjoining Salt Lake at any time after the first of July.

PIPE COMPANY GIVEN \$1000 FOR EXTRA WORK IN CANYON

The city board of commissioners this morning directed the city recorder to advertise for bids for the laying of pavement on Jackson avenue, between Twenty-fifth and Twenty-sixth streets.

The claim of the Portland Wood Pipe company for extra work on the artesian wells pipe line for \$1000 was allowed and the auditor directed to draw a warrant for the amount and place it in the First National bank of Ogden for the company, as requested. Ordinances creating sewer districts 124 and 127 were passed and ordered published.

AGENTS WATCH ALL MEXICANS

Movements of Prominent Men Under Surveillance of Special U. S. Officers.

TO PREVENT TROUBLE

Violations of Neutrality to Be Rigorously Prosecuted—Many Suspected of Conspiracy.

Washington, June 29.—Agents of the United States government were today busily engaged all over the country watching carefully the movements of prominent Mexicans who have been active in Mexican politics and also those suspected of such activity to see that there are no violations of American neutrality.

The arrest of General Victoriano Huerta and Pascual Orozco at El Paso and the strict surveillance over General Felix Diaz, Mondragon, Blanquet and Felipe Angeles, now living in the United States and others, is a part of the general policy of the American government to try and prevent the setting afoot of any new military movement in Mexico. Officials here feel that the revolution situation in Mexico ought not to be further complicated by the introduction of new elements.

In line with its policy to prevent, if possible, further revolutionary movements in the southern republic or at least the setting on foot of such expeditions on American soil, the government purposes to prosecute vigorously violations of neutrality regardless of the prominence of the individuals or their affiliations.

Possibility that others may be identified with the so-called Huerta conspiracy intensified interest here today in the investigation by agents of the department of justice here today in the United States and others, is a part of the general policy of the American government to try and prevent the setting afoot of any new military movement in Mexico. Officials here feel that the revolution situation in Mexico ought not to be further complicated by the introduction of new elements.

It is even intimated that citizens of one of the European belligerents are in the United States and others, is a part of the general policy of the American government to try and prevent the setting afoot of any new military movement in Mexico. Officials here feel that the revolution situation in Mexico ought not to be further complicated by the introduction of new elements.
